Package: snotelr (via r-universe)

August 21, 2024

Title Calculate and Visualize 'SNOTEL' Snow Data and Seasonality

Version 1.4

Description Programmatic interface to the 'SNOTEL' snow data (">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-program>">https://www.nrcs.usda.gov/programs-initiatives/swsf-snow-survey-and-water-supply-forecasting-programs-initiatives/swsf-swsf-snow-survey-and-water-supply-swsf-snow-survey-and-water-supply-gov-swsf-snow-survey-and-water-supply

snotel_download

Dowloads snotel data based upon a subset of the sno-tel info as provided by snotel_info()

Description

Dowloads snotel data based upon a subset of the sno-tel info as provided by snotel_info()

Usage

Index

```
snotel_download(site_id, network = "sntl", path = tempdir(), internal = FALSE)
```

Arguments

```
site_id subset of the sites listed by snotel_info()

network network list to query (default = sntl, for SNOTEL)

path where to save downloaded files (default = tempdir())

internal return data to workspace, TRUE or FALSE (default = FALSE)
```

Examples

```
## Not run:
# download data for SNOTEL site 429 and 1287, returning data to
# the R workspace
df <- snotel_download(site_id = c(429,1287), internal = TRUE)
# list a few first rows
head(df)
## End(Not run)</pre>
```

snotel_explorer 3

snotel_explorer

Start the SNOTEL shiny interface

Description

Start the SNOTEL shiny interface

Usage

```
snotel_explorer()
```

Examples

```
# snotel_explorer()
```

snotel_info

Downloads a SNOTEL site listing for further processing

Description

Downloads a SNOTEL site listing for further processing

Usage

```
snotel_info(network = "sntl", path)
```

Arguments

network network list to query (default = sntl, for SNOTEL)

path where to save the snotel information (site list)

Examples

```
## Not run:
# download the meta-data from the SNOTEL server
meta_data <- snotel_info()

# show a couple of lines
head(meta_data)

## End(Not run)</pre>
```

4 snotel_phenology

snotel_metric

Convert snotel data to metric from imperial units

Description

Data is read from either a snotel data frame and returned as such.

Usage

```
snotel_metric(df)
```

Arguments

df

snotel data frame

Details

By default the conversion is done upon download. This function might serve some a purpose in processing of data grabbed straight from the server rather than through the package.

This is an internal function only. Hence, no examples are given.

Value

a data frame with imperial values converted to metric ones

snotel_phenology

Calculates snow phenology from the snow water equivalent data

Description

First snow melt, first continuous snow melt, first snow accumulation and continuous snow accumulation are reported.

Usage

```
snotel_phenology(df, threshold = 0, offset = 180)
```

Arguments

df a snotel data file or data frame

threshold threshold for mapping continuous snow cover offset of the year relative to January first (DOY 1)

snotel_phenology 5

Details

Be sure to execute this code on individual sites when loading a combined tidy data frame containing data for multiple sites.

Examples

```
## Not run:
# download one of the longer time series
df <- snotel_download(site_id = 670, internal = TRUE)
# calculate the snow phenology
phenology <- snotel_phenology(df)
# show a couple of lines
head(phenology)
## End(Not run)</pre>
```
